

# Smoke-Free Zone

For **your** health and safety —  
and that of our patients,  
employees and visitors —  
we ask that you **do not smoke**  
while at Southcoast Hospitals.

- We have a responsibility to create and promote a healthy environment for you.
- Many of our patients and visitors have respiratory and other health problems that are affected by secondhand smoke.
- Patients who smoke take longer to heal and are more likely to have complications.

**The map on the back of this card shows you where smoking is allowed at this hospital.**

**Thank you for your support!**

O mapa na part de trás deste cartão indica-lhe onde é permitido fumar neste hospital.

Obrigado por seu apoio.

El mapa en la parte tras de esta tarjeta le muestra donde es permitido fumar en este hospital.

Gracias por su apoyo.
