Healing Together

- Healing and grief have no time table. We work together to prepare our campers for the road ahead and give them tools to help make those days more manageable.
- All groups follow a structured schedule of activities. Children are free to participate in activities at their own comfort level.
- Campers ages 6 to 15 can enjoy a traditional camp setting which contributes to the healing experience.

"Remember, any child old enough to love is old enough to mourn ..."
