Southcoast Health
Invitational

Southcoast Health, the only not-for-profit health care system in this region, links together three nonprofit community hospitals — Charlton Memorial in Fall River, St. Luke's in New Bedford and Tobey in Wareham. The hospitals have been united since 1996 as part of Southcoast Health System, one of the largest and fastest growing health systems in Massachusetts.

Founded in 1922, the Kittansett Club is one of the region's most historic private golf clubs, and one of only a few seaside courses in New England. Perennially ranked as one of "America's 100 Greatest Golf Courses" by *Golf Digest* magazine, Kittansett offers both a scenic and demanding test of golf. The location provides a true seaside golf experience with spectacular water views and ever-changing winds that make a round at Kittansett both challenging and memorable!
