

# COVID-19 Bulletin

 Southcoast Health

Exclusively for the employees  
of Southcoast Health

September 24, 2021

Greetings, Southcoast Colleagues.

In this Bulletin, you will find the following:

- **IMPORTANT: Quarantine and return to work**
- **UPDATE: Testing appointments for patients**
- **NEW: Vaccination clinics + booster shots**
- **STATUS REPORT: COVID-19 cases**

Please scroll through the entire Bulletin for these updates, and be sure to visit Southcoast's redesigned [COVID-19 Employee Hub](#).

Thank you.

---

## **IMPORTANT: Quarantine and Return to Work**

*Below is the most current Southcoast Return to Work (RTW) protocols as of September 23, 2021, based on MA Department of Health and CDC guidance.*

[Click here for a printable PDF download.](#)

### 1. How do I schedule a COVID-19 test?

- A. **Schedule a COVID-19 test through [MyChart](#)** (preferred method and a new feature); **OR**
- B. Call the COVID-19 Nurse Triage Line at (508) 973-4968 (please have patience, as the line is experiencing higher-than-normal call volume)

You will receive a notification from **MyChart** as soon as the results are available.

Please check your **MyChart** to access your results (do not call the COVID-19 Results line, as our COVID-19 Results team is calling *only those who have a positive result*).

Infection Prevention will be notified if a test performed on an employee at Southcoast Health results as positive. Southcoast is required to consider/conduct a tracer to determine if any COVID-19-positive healthcare worker has come into contact with colleagues and/or patients.

**Outside Tests:** *If you receive a positive result from a test outside of Southcoast Health, you have an obligation to notify Infection Prevention.*

During regular business hours, please call Infection Prevention at 508-973-5497. During off hours, send a confidential email to [infectionprevention@southcoast.org](mailto:infectionprevention@southcoast.org).

For urgent needs, off hours, utilize the Page Operator (or SmartWeb) to page the Infection Prevention person on call.

## 2. Can I request an expedited COVID-19 test for myself?

You must request approval for an expedited test through the Incident Command Center (ICC). The ICC number is (508) 973-5801 and is staffed 24/7.

Southcoast Health may deny requests for expedited testing, regardless of reason, if there are insufficient PCR supplies on hand to accommodate the request and/or there is a need to prioritize testing for acutely ill patients. In this instance, the testing swab would be sent to an outside lab for PCR processing.

## 3. How is a close contact/unprotected exposure defined?

Being within 6 feet of a confirmed or clinically diagnosed COVID-19 person for at least 15 minutes, while the person was symptomatic or within the 2 days before symptom onset (or date of positive if they were asymptomatic)

**while not wearing recommended personal protective equipment or PPE (facemask, eye protection), OR**

Having direct contact with infectious secretions of a confirmed or clinically diagnosed COVID-19 case (e.g., being coughed on) **while not wearing recommended personal protective equipment or PPE (facemask, eye protection)** or facemask, eye protection, gown and gloves if aerosol generating procedures (AGP) are performed.

In general, if you experience an unprotected exposure, you should monitor yourself diligently for temperature  $\geq 100^\circ$  and any established COVID-related symptoms for 14 days from time of exposure.

**\*\*\*If any COVID-related symptoms develop, do not report to work.\*\*\***

#### **4. If I have mild COVID symptoms (with or without exposure to a COVID-positive individual):**

*Do I need to get tested before I can come to work?*

Yes. If you have symptoms, you should be tested for COVID-19 as soon as possible.

*Can I come to work while I await the results of my test?*

No, you cannot remain at or report to work. You must stay home and self-isolate while waiting for test results. While self-isolating at home, you should wear a mask and distance yourself from household members.

You should also notify your manager.

You must be cleared by Employee Health to return to work, even if you test negative.

#### **5. When can I return to work after absence due to COVID-19?**

You can return to work only after you are fever-free for at least 24 hours, your symptoms have improved, 10 days have elapsed since symptom onset (or first positive test) **AND** you receive clearance from Employee Health.

You may end self-isolation on day 11.

When you are ready to return to work, you should submit the information listed below using the [Return to Work Form](#).

**Please DO NOT CALL Employee Health directly.**

Please include the following information: DOB, phone number, COVID test date, test result (positive), description of symptoms (please specify all symptoms), date symptoms started, whether symptoms have improved, and dates out of work

You will be contacted by phone and/or email within 24 hours after submitting information.

Southcoast is monitoring and responding to RTW messages every day, including weekends and holidays.

**6. If I have no symptoms and have been exposed to a household member who has or does not have symptoms and has not yet obtained test results:**

***Do I need to get tested before I can come to work?***

A secondary exposure does not require testing or isolation, just continued self-monitoring. If your household member's results come back positive, even if you have been vaccinated, follow the guidelines in question 7 below.

**7. If I have no symptoms but have been exposed to a household member that has tested positive:**

***Do I need to get tested before I can come to work?***

Yes, you must be tested for COVID-19 (antigen test is sufficient), even if you have been vaccinated. Though the risk is small, about 5%, vaccinated individuals may acquire COVID-19. If you are fully vaccinated and remain asymptomatic you may work while your test results are pending.

If the employee test is negative and you remain asymptomatic, you may return to work with Employee Health clearance but must complete quarantine outside of work per guidelines below.

**You must continue to quarantine until that clearance, unless you are FULLY vaccinated or have fully recovered from COVID-19 within 3 months:**

- Quarantine will be for 14 days if no test is done after household exposure, or if symptoms develop, even with a negative test (RTW Day 15)
- Quarantine will be for 10 days after household exposure if test is done within 5 days (RTW Day 11)
- Quarantine for 7 days if test is done day 5 or later (RTW Day 8)

You must continue to actively monitor for even mild symptoms for 14 days from time of exposure. If they develop, you must self-isolate.

### *Can I come to work while I await the results of my test?*

ONLY if you are FULLY vaccinated or have fully recovered from COVID-19 within 3 months. If not, because this was not a workplace exposure, you must stay out of work while awaiting the results of your test.

You should also inform your manager and self-isolate. While self-isolating at home, wear a mask and distance yourself from household members.

### **8. One of my co-workers tested positive, but that person had no symptoms when I was working with them:**

#### *If I have no symptoms, do I need to get tested?*

If you meet the definition of close contact/unprotected exposure, then you must be tested for COVID-19 (see question 7), even if you have been vaccinated. Though the risk is small, about 5%, vaccinated individuals may acquire COVID-19.

You must also complete an [ART form](#), which you can obtain from the Employee Health department, even if you have received the COVID-19 vaccine.

Infection Prevention will perform contact tracing in conjunction with unit leadership to identify close unprotected contacts.

### ***Can I still come to work with test pending?***

Yes, you may work following a workplace exposure if you are not experiencing COVID-related symptoms.

However, you must wear mask and eye protection while working, quarantine when not working and self-monitor for symptoms for 14 days after exposure.

If you develop symptoms consistent with COVID-19, you must stop working and arrange to get re-tested. Please follow the guidelines provided in question 4 above.

### **9. Are there side effects with the vaccine? What do I do if I experience side effects from the vaccine? If I have side effects can I still work?**

Following vaccination, you may experience some common side effects that normally subside within 3 days, such as: pain or swelling at injection site, low grade fever <101F, chills, fatigue, headache or muscle and joint pains.

Please see below or go to the COVID-19 Vaccination Information page on the intranet for important information on managing side effects and on work restrictions, located here:

<http://intranet.southcoast.org/southcoast/covid.cfm>.

**POST COVID-19 VACCINATION: HEALTHCARE WORKER SYMPTOM MANAGEMENT**

Following vaccination, you may experience some common side effects that normally subside within 3 days, such as: Pain or swelling at injection site, low grade fever <101F, chills, fatigue, headache or muscle and joint pains.

SYMPTOMS	PCR TEST	WORK RESTRICTIONS	WHAT DO I DO?
Local site reaction only (mild swelling, redness, bruising, warmth)	NO	NO RESTRICTION	<ul style="list-style-type: none"> <li>• SELF-MONITOR</li> <li>• CAN WORK IF MILD</li> <li>• IF SIGNS OF URTICARIA OR ANAPHYLAXIS, SEEK IMMEDIATE MEDICAL CARE</li> </ul>
Mild allergic symptoms such as rash, hives or itching	NO	NO RESTRICTION	<ul style="list-style-type: none"> <li>• SELF-MONITOR</li> <li>• CAN WORK IF MILD</li> <li>• IF SIGNS OF URTICARIA OR ANAPHYLAXIS, SEEK IMMEDIATE MEDICAL CARE</li> </ul>
<p>&lt; 3 days post-vaccination with one or more of the following mild symptoms (vaccination is day 1):</p> <ul style="list-style-type: none"> <li>• Mild symptoms with Temp up to 101F</li> <li>• Mild headache</li> <li>• Mild fatigue or tiredness</li> <li>• Mild muscle aches or mild joint pains</li> </ul> <p>NO PRIOR COVID-19 OR &gt;90 DAYS SINCE COVID-19</p>	YES	<p>NO RESTRICTION WHILE TEST IS PENDING/NEGATIVE</p> <p>Able to work wearing appropriate PPE while PCR test is pending.</p>	<ul style="list-style-type: none"> <li>• NOTIFY MANAGER</li> <li>• ENTER ONLINE FORM FOR OCCUPATIONAL HEALTH</li> <li>• SCHEDULE PCR ON MYCHART</li> <li>• POSITIVE PCR: CONFER WITH OCC HEALTH AND MANAGER REGARDING RTW</li> </ul>

<p>&lt; 3 days post-vaccination, with any of the following:</p> <ul style="list-style-type: none"> <li>• Fever ≥ 101F or</li> <li>• Severe headache or</li> <li>• Severe fatigue characterized by sense of exhaustion leading to curtailment of daily activities or</li> <li>• Severe myalgias (muscle aches) or</li> <li>• Severe arthralgias (joint pains) or any other symptoms COVID-19 symptoms (Fever, cough, SOB, loss of taste or smell, sore throat)</li> </ul> <p>NO PRIOR COVID-19 OR &gt;90 DAYS SINCE COVID-19</p>	YES	<p>RESTRICTED FROM WORKING ONSITE</p> <p>Restricted from working onsite pending COVID-19 test results. Requires clearance from Employee Health for return to work.</p>	<ul style="list-style-type: none"> <li>• NOTIFY MANAGER</li> <li>• ENTER ONLINE FORM FOR OCCUPATIONAL HEALTH</li> <li>• SCHEDULE PCR ON MYCHART</li> <li>• CONFER WITH OCC HEALTH AND MANAGER REGARDING RETURN TO WORK</li> </ul>
<p>ABOVE WITH RECENT COVID-19 INFECTION (&lt;90 DAYS)</p>	NO	<p>Restricted from working onsite pending symptom abatement and clearance from Employee Health for return to work.</p>	<ul style="list-style-type: none"> <li>• NOTIFY MANAGER</li> <li>• ENTER ONLINE FORM FOR OCCUPATIONAL HEALTH</li> <li>• CONFER WITH OCC HEALTH AND MANAGER REGARDING RETURN TO WORK</li> </ul>

\* Staff are required to report certain adverse events following vaccination to the Vaccine Adverse Event Reporting System (VAERS) at: <https://vaers.hhs.gov/reportevent.html>. Report severe symptoms to Employee Health.

This is based on Mass DPH Guidance from December 16, 2020 entitled Considerations for Health Care Personnel After COVID-19 Vaccination.

January 2021 V3

For more details, refer to [HCP Vaccination Work Guidance \(12/16/20\)](#) issued by the Massachusetts Executive Office of Health and Human Services.

**10. I received my second dose of vaccine. Massachusetts is fully reopened as of May 29, with the Commonwealth’s State of Emergency Order having ended on June 15. Which Southcoast guidelines and procedures must I follow for PCR testing and quarantining, masking, travel, and RTW?**

Most all guidelines and procedures from before the Commonwealth’s May 21 announcement are still in place for health care facilities and should be followed. However, please keep up to date on any changes to guidelines and procedures as they occur.

Quarantining is no longer required for asymptomatic employees fully vaccinated (14 days after 2<sup>nd</sup> Pfizer/Moderna dose or after the single Jonson & Johnson dose).

Per state mandate regarding healthcare facilities and providers, masks must still be worn by everyone in Southcoast facilities at all times, although N95s will only be required when caring for a patient under investigation (PUI) or COVID-positive patient or performing an aerosol generating procedure (AGP). N95s will no longer be required at all times in the Emergency Departments.

- If you travel in the United States, you do not need to get tested before or after travel or self-quarantine after travel.
- You need to pay close attention to the situation at your international destination before traveling outside the United States.
- You do NOT need to get tested before leaving the United States unless your destination requires it.
- You still need to show a negative test result or documentation of recovery from COVID-19 before boarding an international flight to the United States.
- You should still get tested 3-5 days after international travel. You do NOT need to self-quarantine after arriving in the United States.

Our gathering policy – which allows for in-person breaks and meetings among fully vaccinated staff, with a limit of 10 people to a room, masked and social distanced – will continue. Please maintain social distancing at all times as a baseline intervention, and ensure that patients and visitors do so, as well.

**Additionally, even if vaccinated, healthcare workers must still obtain a negative test prior to returning to work following household or community exposure.**

---

**UPDATE: Testing appointments for patients**

Southcoast has recently implemented functionality on [MyChart](#) allowing healthcare proxies to schedule testing and labs for children or others for whom they serve as proxy.

Before this improvement, parents/proxies were not able to schedule online. We hope you enjoy this expanded convenience to self-schedule appointments if you are a proxy in MyChart.

If you would like more information about the MyChart Proxy access process, please visit this informational page: [MyChart Access Requests - Southcoast Health](#).

---

**UPDATE: Vaccination clinics**

Below is the current alignment of Southcoast vaccination clinics. Please note that the operating hours at 49 State Road in Dartmouth have now been absorbed at the former Vanity Fair outlet.

# Southcoast Health Vaccination Clinics

Please visit [Southcoast.org/covid-19-vaccination](https://Southcoast.org/covid-19-vaccination) to self-schedule an appointment, or walk in when you're nearby.

## **DARTMOUTH**

Former Vanity Fair Outlet  
375 Faunce Corner Road

**Wednesdays, 9am-4pm** (Pfizer, Moderna, J&J)

**Thursdays, 4-8pm** (Pfizer, Moderna, J&J)

**Saturdays, 10am-2pm** (Pfizer, Moderna, J&J)

## **FALL RIVER**

Truesdale Health  
1030 President Avenue

**Tuesdays, 9am-3pm** (Pfizer, J&J)

## **WAREHAM**

Rosebrook  
100 Rosebrook Way

**Thursdays, 10am-2pm** (Pfizer, J&J)

## **MOBILE WELLNESS VAN (MWV)**

Keep an eye out for the Southcoast MWV in your community, and find upcoming stops at [Southcoast.org/covid-19-vaccination](https://Southcoast.org/covid-19-vaccination).

 Southcoast® Health

**NEW:** Starting Monday, September 27, Southcoast will offer EMPLOYEE-ONLY walk-in hours at the Vanity Fair location for Pfizer booster shots, as authorized by the CDC today.

**Eligible employees based on current criteria (and ONLY those who have received the Pfizer series) are limited to the following:**

- Emergency Department (including all staff working in EDs)
- Critical Care Units (including all staff working in CCUs)
- Urgent Care
- Infectious Disease/Infection Prevention
- Respiratory Therapy
- COVID-19 Nursing Units
- Nursing Float Pool
- Hospitalists
- Any employee 65 or older

**Initial schedule for eligible-employee walk-in boosters at Vanity Fair:**

- Monday, September 27: 1:30-5:30pm
- Tuesday, September 28: 5:30-9:30am; 1:30-5:30pm

If you have any questions regarding the Southcoast booster plan, please email [VaccineQuestions@southcoast.org](mailto:VaccineQuestions@southcoast.org).

---

### **STATUS REPORT: COVID-19 cases**

As of Friday evening, we have 45 patients who have tested positive for COVID-19 hospitalized across our system – with 10 positive cases in ICU. In addition, we currently have 19 PUI currently hospitalized across our system – with 0 PUI in ICU.

COVID-19 daily dashboards, generated by the Southcoast Analytics Team, are available [here](#).

For Chief Clinical Officer Dr. Dani Hackner's latest update, [please click here](#).
